## **UNDERSTANDING YOUR HEALTH RECORD**

Each time you visit our practice, a record of your visit is made. Typically, this record contains your symptoms, examination and test results, diagnoses, treatment, and a plan for future care or treatment. This information, often referred to as your health or medical record, serves as a:

- Basis for planning your care and treatment,
- Means of communication among the many health professionals who contribute to your care,
- Legal document describing the care you received,
- Means by which you or a third-party payer can verify that services billed were actually provided,
- Tool in educating health professionals,
- Source of information for public health officials charged to improve the health of the state and nation,
- Source of data for our planning and marketing, and
- Tool by which we can assess and continually work to improve the care we render and outcomes we achieve.

Understanding what is in your record and how your health information is used helps you to: ensure its accuracy; better understand who, what, when, where, and why others may access your health information; and make more informed decisions when authorizing disclosure to others.

## **EXAMPLES OF DISCLOSURES FOR TREATMENT, PAYMENT, AND HEALTH OPERATIONS We will use your health information for treatment.**

*For example:*

Information obtained by a physical/occupational therapist, or other member of your health care team will be recorded in your record and used to determine the course of treatment that should work best for you. Your physical/occupational therapist will document in your record his or her expectations of the members of your health care team. Members of your health care team will then record the actions they took and their observations. In that way, the physical/occupational therapist will know how you are responding to treatment.

We will also provide your other physician(s) or subsequent health care provider(s) (when applicable) with copies of various reports that should assist them in treating you.

## **We will use your health information for payment.**

## **We will use your health information for regular health operation.**

*For example:*

Members of the medical staff, the risk or quality improvement manager, or members of the quality improvement team may use information in your health record to assess the care and outcomes in your case and others like it. This information will then be used in an effort to continually improve the quality and effectiveness of the healthcare and service we provide.
